Contracting Engineers  
1401 Quail Street, Suite 115  
Newport Beach, CA 92660

**RE: PUENTE HILLS MATERIAL RECOVERY FACILITY  
JOB NO. 2224**

**SUBJECT: THANK YOU**

Dear Greg:

I just wanted to thank you for you for a job well done on the Puente Hills Material Recovery facility. Your professional crews and your personal attention were the key to a trouble free process and a quality product. In my 30 years of experience, I have never seen a project that was specified to such strict standards, but you always delivered.

As you well know, this is not just another material recovery project. It is the flagship for the Los Angeles County Sanitation District and currently the largest MRF in the United States. It will be the subject of an upcoming History Channel Modern Marvels segment due to its size and complexity. You can be proud of your role in this project and be assured that G&W would not hesitate to work with CEI again.

Very truly yours,

**GORDON & WILLIAMS GENERAL CONTRACTORS**
